TAMPOPRINT® - your system partner!

TAMPOPRINT® AG is a well-established partner for the "beverage industry".

Our automated systems are in use all over the world.

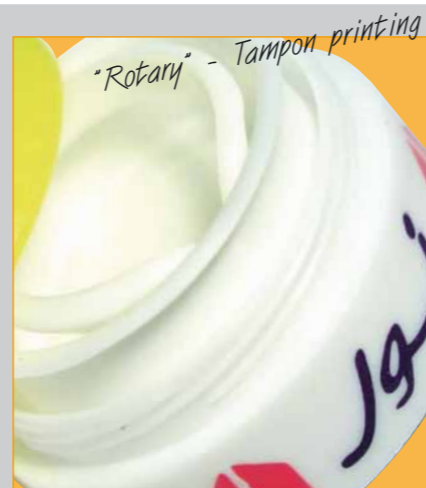

As a long-time partner of many well-known companies and their suppliers we have developed a very high know-how in this industrial sector. Our high-quality fully automated systems print and laser engrave millions of all kinds of beverage closures every day.

Our fully automatic tampon printing and laser machines meet the highest quality requirements when used in multi-shift operation with high throughput speed. As far as special solutions are concerned, our project management has many years of experience also in this field.

Highest precision of the print image registration on convex, round or flat parts using the tampon printing process, one to multicolour, or using the ALFALAS® laser marking process goes without saying and meets the high standards for modern industrial products. Process monitoring using latest camera systems as well as their validation will secure your production and the quality of your production.

Whether ShortCap, LongCap, one or multicolour closures, Ø 38 or 28 mm, TAMPOPRINT® has the suitable automation for you.

Machine construction - simply "Made in Germany".
